Could you provide a 1 day insight visit for a student nurse?

The University of Nottingham is working with the Nottinghamshire Alliance Training Hub to try and increase the exposure our Graduate Entry Nursing Students get to General Practice Nursing during their studies.

We know that students who experience a placement in general practice are more likely to choose general practice nursing as a career (Lewis et al, 2019). However, full placements are limited and so we would like to organise for our adult nursing students to spend a day with a GPN.

There will be no educational audit required, and no need for a practice assessor to be present, so even if you don't currently offer placements to student nurses, you could still help to introduce a student nurse to the wonderful world of General Practice Nursing!
